

Pallet Jacks

Pallet Jacks are an essential component of any material handling operation. These provide an easy way to move pallets around without the use of a fork lift in warehouses, shops, or industrial environment. Heavy duty steel frame allows pallet jack to withstand heavy use and provide years of service.

FEATURES:

- 3 function handle control to raise, lower, and neutralise pallet jack
- Spring loaded loop handle allows an easy grip from any angle
- Made out of heavy duty steel that can hold up to 5,500 pounds
- Heavy duty non-marring polyurethane wheels
- Powder coated safety yellow
- Tapered forks for easy entry into skids

OPTIONS:

- Forks available in narrow or wide
